

Light & Intermediate
Type Approval Schemes Procedure

- 1) The applicant applies for Type Approval at Type Approval Services page and submits the documents mentioned in Table I for each model.
- 2) Applicant submits the required samples according to Table I.

Table I: Type Approval required documents and samples per model.

Product Type	Mobile Phone / Cellular Tablet	Cellular Repeaters	DECT Phone	Other products
Samples required	One Final Sample + One Wireless WAN Conducted Sample with an <u>SMA interface</u> connected to the cellular module.	One Sample with <u>N-Type or SMA interfaces</u> connected to both MS (Mobile Station) and BS (Base Station) outputs.	One Final sample from each model.	No samples required unless explicitly mentioned.
Documents required	1) Complete test reports of: 1-1) Radio Frequency (RF) Compliance. 1-2) Electromagnetic Compatibility (EMC). 1-3) Safety. 1-4) Specific Absorption Rate (SAR). Test reports need to be according to European (CE) or American (FCC/UL) or International (IEC) standards and must be issued by any of accredited labs in the scheme applied. Accredited labs for each scheme are listed in DoC 03 published on Type Approval page in NTRA website. 2) Data Sheet & Operational Description of the product. 3) EU-Type Examination Certificate (if available) 4) Declaration of Conformity Certificate. 5) Type Approval Application Form published on Type Approval Services page.			

- 3) In case submitted documents and samples are accepted, applicant should pay the applied type approval fees through NTRA website.
- 4) Product Type Approval is processed. Applicant has right to request for Type approval certificate without additional fees.

Notes:

- Applicant has to follow either CE or FCC labeling requirement for the device and its package box plus adding importer name on the package box.
- For cellular terminal equipment shipments (like mobile phones, cellular routers...etc), the importer should send an email to imei@tra.gov.eg including one excel sheet for each model with information & format shown in Fig.1. Applicant can download the excel file of with the required format from “Forms” section in Type Approval Services page on NTRA website.

IMEI 1	IMEI 2	Way Bill No.	Date	Company Name	Model	Description

Fig.1. Table format required for each model in cellular terminal equipment shipments.

- NTRA has the right to randomly collect samples from any shipment and inspect them before initiating the clearance permit even if the models in the shipment are already type approved.
- Applicant has the right to take back all samples submitted within 45 after their submission date.
