

Light & Intermediate
Type Approval Schemes Procedure

- 1) The applicant submits the documents mentioned in Table I for each model (for local applicants, documents submission should be through Type Approval Services Digital Portal whereas for overseas applicants, documents submission should be through the email overseasapproval@tra.gov.eg)
- 2) The applicant submits the required samples according to Table I.

Table I: Type Approval required documents and samples per model.

Product Type	Mobile Phone / Cellular Tablet	Cellular Repeaters	DECT Phone	Other products
Samples required	One Final Sample + One Wireless WAN Conducted Sample providing an <u>SMA interface</u> to the cellular port.	One conducted Sample providing <u>N-Type or SMA interfaces to MS (Mobile Station) and BS (Base Station) ports.</u>	One Final sample.	No samples required unless explicitly mentioned.
Documents required	1) Complete test reports of: 1-1) Radio Frequency (RF) Compliance. 1-2) Electromagnetic Compatibility (EMC). 1-3) Safety. 1-4) Specific Absorption Rate (SAR). Test reports need to be according to European (CE) or American (FCC/UL) or International (IEC) standards and must be issued by any of the applied scheme accredited labs mentioned in <u>Doc 03</u> . 2) Data Sheet & Operational Description of the product. 3) EU-Type Examination Certificate (if available) 4) Declaration of Conformity Certificate. 5) <u>Type Approval Application Form</u> .			

- 3) In case submitted documents are accepted and submitted samples have passed their local tests, the applicant should pay the applied type approval fees published on Type Approval Procedure page.
- 4) Product Type Approval is processed. The applicant has right to request for Type approval certificate without additional fees.

Notes

- The product should follow the requirements specified by European Union (EU) or Federal Communications Commission (FCC) in regard to the information required to be written on the device, the external battery, the charger and the package box. Such information should be written clearly and visibly.
- For products marketed to the public people like home and mobile phones, home routers...etc, an Arabic user manual must be included. The Arabic translation must be carried out by a translation party accredited by any governmental entity in the Arab countries.
- For cellular terminal equipment shipments (like mobile phones, cellular routers...etc), for every shipment, the importer should fill the [Cellular terminal equipment shipments Form](#) and send it to imei@tra.gov.eg
- NTRA has the right to randomly collect samples from any shipment and inspect them before initiating the clearance permit even if the models in the shipment are already type approved.
- The applicant has the right to take back all test samples submitted within 45 days after their submission date.
